

# DANIEL ADVISORS

## Legal Disclosures

**THE DANIEL FINANCIAL GROUP, LLC (a.k.a Daniel Advisors)** is a fee-only investment advisor registered through the State of Georgia under the Investment Advisor's Act of 1940. Fee-only advisors do not collect fees or commissions from any other source other than the client, including but not limited to: mutual funds, broker/dealers, custodians, insurance companies, banks and other financial institutions, hedge funds or private equity funds. A complete description of legal disclosures is found in our Form ADV Part II, which is required to be provided to every client. It is also available upon request by any potential client as part of their own review process prior to retaining TDG.

TDG does receive software products and services from Fidelity Institutional Wealth Services (FIWS) and other broker dealers, including software to enable direct electronic downloading of client account information, electronic trading, and access to investment research and information provided by broker-dealers. Clients do not pay higher commissions as a result of these products and services furnished by broker-dealers to TDG. TDG recommends that clients utilize broker/dealers, such as FIWS, that provide clients with institutional pricing on purchases of individual stocks, bonds, mutual funds, exchange traded funds and investment sub-advisor managed accounts. On occasion, DFG may recommend funds that include 12b-1 fees which are charged by certain mutual funds to cover marketing and distribution expenses. Additionally, TDG may recommend funds where the broker and/or custodian charge a transaction fee to process trades for the client's account. TDG earns no fees or commissions from these transaction fees or 12b-1 fees. These fees are considered by TDG as part of its internal due diligence efforts and will not entirely exclude a fund from being recommended.
